Curriculum Vitae

Personal Information

Aaron Chuey, PhD
Postdoctoral Scholar
Harvard University
Department of Psychology
33 Kirkland St.
Cambridge, MA, USA 02138
Email: aaronchuey@fas.harvard.edu

Education & Employment

2025 - Present **Harvard University**
Postdoctoral Scholar - Department of Psychology
PI: Ashley Thomas

2019 - 2025 **Stanford University**
PhD - Department of Psychology
Thesis Title: *Theory of Minds: early understanding of interacting minds*
Advisor: Hyowon Gweon

2016 - 2019 **Yale University**
Lab Manager - Department of Psychology
PI: Frank Keil

2013 - 2016 **University of Michigan**
B.A. Philosophy; B.A. Cognitive Science
Awarded *with Highest Distinction*

Honors & Awards

2024 **Travel Grant Award** - *Cognitive Science Society*

2023 **Travel Grant Award** - *Cognitive Science Society*

2022 **Norman Anderson Research Grant** - *Stanford University*

2019 - 2024 **Stinehart-Reed Graduate Fellowship** - *Stanford University*

2016 **Frankena Prize** - *University of Michigan*

2014 - 2016 **Angell Scholar** - *University of Michigan*

2013 **Branstrom Prize** - *University of Michigan*

2013 **Regents Merit Scholarship** - *University of Michigan*

Research Publications

Manuscripts in Progress

1. Chuey, A., Sparks, R. Z., and Gweon, H. Young children can infer what speakers know based on their causal influence over listeners, in press @ Cognition
2. Chuey, A., Gweon, H., and Thomas, A. Preschoolers accurately represent the structure of their class' social network, in prep
3. Chuey, A., King, A., and Thomas, A. Young children's understanding of communication across language barriers, in prep

Journal Articles

1. Chuey, A., Jara-Ettinger, J., and Gweon, H. Young children understand how social connections affect what people know about each other. *Proceedings of the National Academy of Sciences 123*, 12 (2026), e2525150123
2. Chuey, A., Williams, R. M., Qing, C., Frank, M. C., and Gweon, H. Children's understanding of how noise disrupts verbal communication. *Child Development* (2026), 1–11
3. Chuey, A., and Gweon, H. Theory of minds: early understanding of interacting minds. *Annual Review of Developmental Psychology 7* (2025), 1–27
4. Chuey, A., Boyce, V., Cao, A., and Frank, M. C. Conducting developmental research online vs. in-person: A meta-analysis. *Open Mind 8* (2024), 795–808
5. Chuey, A., Luo, Y., and Markman, E. M. Epistemic language in news headlines shapes readers' perceptions of objectivity. *Proceedings of the National Academy of Sciences 121*, 20 (2024), e2314091121
6. Chuey, A., Lockhart, K., Trouche, E., and Keil, F. Young children can infer information preferences from goals and recommend appropriate sources to others. *Developmental Psychology 59*, 8 (2023), 1511
7. Asaba, M., Chuey, A., and Gweon, H. Beyond knowledge versus belief: The contents of mental-state representations and their underlying computations. *Behavioral and Brain Sciences 44* (2021)
8. Chuey, A., Asaba, M., Bridgers, S., Carrillo, B., Dietz, G., Garcia, T., Leonard, J. A., Liu, S., Merrick, M., Radwan, S., et al. Moderated online data-collection for developmental research: Methods and replications. *Frontiers in psychology 12* (2021), 734398
9. Chuey, A., McCarthy, A., Lockhart, K., Trouche, E., Sheskin, M., and Keil, F. No guts, no glory: underestimating the benefits of providing children with mechanistic details. *npj Science of Learning 6*, 1 (2021), 30
10. Chuey, A., Lockhart, K., Sheskin, M., and Keil, F. Children and adults selectively generalize mechanistic knowledge. *Cognition 199* (2020), 104231
11. Lockhart, K. L., Chuey, A., Kerr, S., and Keil, F. C. The privileged status of knowing mechanistic information: An early epistemic bias. *Child development 90*, 5 (2019), 1772–1788

Peer-reviewed Conference Proceedings

1. Chuey, A., Gweon, H., and Thomas, A. Early-emerging representation of social networks. In *Proceedings of the Annual Meeting of the Cognitive Science Society* (2026), vol. 48
2. Chuey, A., Qing, C., Williams, R. M., Frank, M. C., and Gweon, H. Show or tell? preschool-aged children adapt their communication to their partner's auditory access. In *Proceedings of the Annual Meeting of the Cognitive Science Society* (2024), vol. 46
3. Chuey, A., Luo, Y., and Markman, E. M. Epistemic language in news headlines affects readers' perceptions of objectivity. In *Proceedings of the Annual Meeting of the Cognitive Science Society* (2023), vol. 45
4. Chuey, A., Sparks, R., and Gweon, H. Young children can identify knowledgeable speakers from their causal influence over listeners. In *Proceedings of the Annual Meeting of the Cognitive Science Society* (2023), vol. 45
5. Chuey, A., Jara-Ettinger, J., and Gweon, H. Violation of epistemic expectations: Children monitor what others know and recognize unexpected sources of knowledge. In *Proceedings of the Annual Meeting of the Cognitive Science Society* (2023), vol. 45
6. Chuey, A., Williams, R. M., Frank, M. C., and Gweon, H. Young children's reasoning about the epistemic consequences of auditory noise. In *Proceedings of the annual meeting of the cognitive science society* (2022), vol. 44
7. Chuey, A., Sheskin, M., and Keil, F. Mechanistic knowledge generalizes differentially. In *Proceedings of the Annual Meeting of the Cognitive Science Society* (2018), vol. 40
8. Trouche, E., Chuey, A., Lockhart, K., and Keil, F. Children don't just wanna have fun: An experimental demonstration of children's curiosity for how things work. In *Proceedings of the Annual Meeting of the Cognitive Science Society* (2018), vol. 40
9. Trouche, E., Chuey, A., Lockhart, K. L., and Keil, F. C. Why teach how things work? tracking the evolution of children's intuitions about complexity. In *Proceedings of the Annual Meeting of the Cognitive Science Society* (2017), vol. 39

Presentations

Invited Talks

2026 **Brown - FeldmanHall Lab Meeting** - *Social Network Cognition*

2026 **UC San Diego - Schachner Lab Meeting** - *Theory of Minds*

2026 **Duke - Amir Lab Meeting** - *Social Network Cognition*

2025 **MIT - Schulz Lab Meeting** - *Theory of Minds*

2025 **Harvard - Labs for Developmental Studies** - *Social Network Cognition*

2024 **Harvard - Thomas Lab Meeting** - *Social Network Cognition*

2024 **Harvard - Labs for Developmental Studies** - *Theory of Minds*

2024 **UC Santa Barbara - Liberman Lab Meeting** - *Theory of Minds*

2024 **Harvard - Thomas Lab Meeting** - *Theory of Minds*

2023 **MIT - Saxe Lab Meeting** - *Theory of Minds*

2023 **Stanford - Psychology Department Colloquium** - *Theory of Minds*

2023 **UC San Diego - Fan Lab Meeting** - *Theory of Minds*

2023 **UC Berkeley - Srinivasan Lab Meeting** - *Theory of Minds*

2023 **UC Berkeley - Engelmann Lab Meeting** - *Theory of Minds*

2023 **UC Santa Cruz - Developmental Area Colloquium** - *Theory of Minds*

2022 **Yale - Jara-Ettinger Lab Meeting** - *Theory of Minds*

2022 **Stanford - Gerstenberg Lab Meeting** - *Theory of Minds*

2022 **UC Berkely - Gopnik Lab Meeting** - *Theory of Minds*

2020 **Yale - Jara-Ettinger Lab Meeting** - *Theory of Minds*

Invited Guest Lectures

2026, upcoming **Warren Wilson College - Infant and Child Development** - *Theory of Minds*

2026, upcoming **Harvard - Intro to Developmental Psychology** - *Theory of Mind*

2025 **UC San Diego - Methods in Infancy Cognition** - *Meta-analysis*

2024 **Stanford - Intro to Symbolic Systems** - *Theory of Minds*

2023 **Stanford - Intro to Developmental Psychology** - *Theory of Mind*

2020 **Virtual Webinar** - *Online Developmental Methods*

Conference Presentations

2026 **Cogsci, Rio de Janeiro** - *Flash Talk*

2026 **CDS, Montreal** - *Poster*

2024 **Cogsci, Rotterdam** - *Talk*

2024 **CDS, Pasadena** - *Symposium talk, co-organized w/ Brandon Woo*

2023 **Cogsci, Sydney** - *Talk*

2023 **Cogsci, Sydney** - *Poster*

2023 **Cogsci, Sydney** - *Poster*

2022 **Social Curiosity Workshop, Gottingen** - *Talk*

2022 **Cogsci, Toronto** - *Flash Talk*

2022 **CDS, Madison** - *Talk*

2022 **CDS, Madison** - *Poster*

2021 **Cogsci, Virtual** - *Poster*

2018 **Cogsci, Madison** - *Talk*

2018 **Cogsci, Madison** - *Poster*

2017 **Cogsci, London** - *Poster*

Ad-hoc Reviewing

Acta Psychologica, Cognition, Cognitive Development, Cognitive Psychology, Cognitive Science, Cognitive Science Society Conference, Developmental Science, Frontiers in Communication, Frontiers in Education, Frontiers in Human Neuroscience, Infant and Child Development, Journal of Experimental Psychology: General, Open Mind, Pragmatics and Cognition, Scientific Reports

Professional Memberships

2017 - present **Cognitive Science Society**

2022 - present **Cognitive Development Society**

Thesis Supervision

Master's Thesis Students

Catherine Qing
Stanford - Symbolic Systems
Thesis Title: *Show or Tell? Preschool-aged children adapt their communication to their partner's auditory access*

Senior Thesis Students

Bobby Sparks
Stanford - Symbolic Systems
Thesis Title: *Preschool-aged children can infer what speakers know based on how they influence others*

Audrey King
Harvard - Psychology
Thesis Title: *How children reason about communication across language barriers* (awarded the Psychology Faculty Prize)

Technical Skills

Coding	Python, R, Javascript (jspsych), WebPPL, LaTeX
Survey Tools	Qualtrics, Lookit, Prolific
Misc.	Video editing (iMovie), Image editing (Paint Pro), Audio editing (Audacity)

September 15, 2026
